Re: Clayton Chemical Site General Notice of Potential Liability

Dear Mr. Turner:

Please be advised that we are counsel to Allied Healthcare Products, Inc. ("Allied") and are in receipt of the General Notice of Potential Liability letter of November 22, 2004 pertaining to the Clayton Chemical Site. Please have all further correspondence pertaining to this matter directed to the undersigned.

Pursuant to the General Notice, Allied is alleged to be a potentially responsible party (PRP) pursuant to Section 107 of CERCLA. Please note that at this time, Allied is unaware of any connection it may have to the Clayton Chemical Site, but is in the process of reviewing its records. At this time, Allied intends to cooperate with U.S. EPA and is planning to attend one of the meetings scheduled for December 7 or 8, 2004, in East St. Louis, Illinois. However, please note that Allied reserves its right not to participate in this matter absent a demonstrated connection to the Clayton Chemical Site.

To this end, the General Notice indicates that you have received information that Allied is a PRP, including a report titled "The RRG/Clayton Liquids Removal, Investigation Report." I am requesting a copy of the report, as well as any other documentation U.S. EPA may have in its possession showing Allied's connection to the Clayton Chemical Site.

Thank you for your time and attention. Please do not hesitate to contact me or Christina L. Archer at (314) 516-2606 if you have any questions regarding the foregoing.

Sincerely,

GREENSFELDER, HEMKER & GALE, P.C.
